High-Line

THE NEW STANDARD.

DRIVERS

The development and production of our High-Line garage doors is based on a number of "drivers". These are the main reasons for selecting and buying a product. Think in terms of:

Design

Comfort and convenience

Safety and security

Sustainability

Financial considerations

All these drivers have been considered in the new series of High-Line garage doors. We are convinced you will recognize these.

DESIGNED FOR YOU

High-Line garage doors are designed with you in mind. Each detail has been carefully considered in order to guarantee a long and problem-free functioning. Furthermore, a garage door should feature attractive design to add value to your home. Thanks to the broad choice of materials and designs, there is always a High-Line garage door that meets your personal wishes.

**“QUALITY IN A PRODUCT
IS NOT WHAT YOU PUT
INTO IT.**

**IT IS WHAT
THE CUSTOMER
GETS OUT OF IT."**

HIGH-LINE GARAGE DOORS

Many years of experience, listening to fitters and users, continuous development and innovation, application of new technology and great attention for even the smallest details.
The result? High-Line garage doors are proving to be the new standard.

The quality of materials used guarantees an extremely long life span and problem-free use. Thanks to expertise and a production line that has made "bespoke" as standard, you will receive the exact door to meet all your requirements.

Because that is what you wish for.

DESIGN AND APPEARANCE

Your garage door determines for a large part the looks and appeal of your house. All the more reason therefore to pay attention to the design and image of your door.
High-Line garage doors are available in a wide range of designs, colours, surface textures and dimensions, providing your house with the door it deserves.

SAFE AND SECURE

A High-Line garage door is simple to operate and has been designed for safe use by you and your family members. The design is also made to keep unwelcome visitors out. Making you feel safe and secure, as you may expect from us.

BUILT IN EUROPE, BUILT FOR YOU

A High-Line garage door is produced for you in Europe on a state-of-the-art production line. Thanks to our advanced and flexible production system, we can tailor your door to your precise dimensions, guaranteeing you a quality product; "built in Europe, built for you!"

THE QUALITY OF POWDER COATING

Besides the standard colours, you can choose from more than 40 colours that we apply to the door leaf using a unique, top-quality powder coating process. Low-temperature powder coating is one of the many innovations of High-Line garage doors. This guarantees the best possible quality finish, only offered on High-Line garage doors. No wonder High-Line is the new standard.

PERFECT COMBINATION: DOOR AND OPERATOR

The convenience of electric operation becomes fully available through the perfect combination of High-Line garage doors and High-Line garage door operators. These two components are fully geared to each other, guaranteeing many years of problem-free operation. The door and the operator have become an integrated system, another truly innovative feature of the High-Line garage door series.

Devices

Garage Door
Opening...

CONNECTIVITY GUARANTEED

A user-friendly smartphone app is available, to operate and monitor the door, wherever you are: myQ. Simple to install and reliable. For example, you don't need to stay home for a parcel delivery, and you can simply open or control your garage door while you're visiting the Pyramids of Giza in Egypt. This combination of garage door and user convenience makes High-Line the new standard.

myQ®

"MADE-TO-MEASURE" IS STANDARD

High-Line garage doors are compiled and produced specially for you. A garage door that meets all your requirements cannot simply be selected from a standard catalogue. "Made-to-measure" is therefore the standard as far as we are concerned. There are no compromises; you get what you want, perfectly dimensioned, just for you. In order to emphasise the unique aspect of your garage door, we add a personalised name plate on the interior, before the door leaves our factory. A new standard in personalisation of your door!

MADE-TO-MEASURE TRACK SYSTEM

Our standard is 'made-to-measure', as are our track systems. Just like the door leaf, the track system is produced individually for you. We have the appropriate solution for every situation. Our track systems offer you the guarantee that your door will open and close effortlessly and problem free, throughout the long life of the door.

ATTENTION FOR DETAIL

Quality can be found in the smallest detail. The High-Line garage door track system is fitted with the patented "Smart Connection" system. This is a High-Line innovation that guarantees a perfect fit after installation. During operation you will notice the smooth and silent connection of the rollers in the tracks. It may be a minor detail, but it's these minor details that make the difference and set the new standard.

PATENTED

NO COMPROMISES

High-Line garage doors are designed by selecting the very best materials. The tracking rollers are fitted with ball-bearings for many years of silent and problem-free operation. The hinges are the same as those used in industrial doors, and as such are designed to withstand much greater forces. This robustness guarantees a long life span for our doors. The track systems are fully bolted, and the thickness of the steel used is unparalleled. See and feel, we will happily challenge any comparison!

10-YEARS "ROYAL WARRANTY"

Our confidence in the quality and reliability of our High-Line garage doors is expressed in the warranty we offer you: A 10-year full warranty on the door and 5 years on the electric drive unit. This is of course subject to one or two fair play rules, but without any unpleasant surprises! Your dealer will be pleased to explain further. This High-Line warranty provides you with certainty and emphasizes the new standard!

SPECIAL WISHES? NOTHING IS IMPOSSIBLE

"Your home is your castle", we couldn't agree more. And so, we can imagine that you might have special wishes. We'll go the extra mile to make them come true. Want to colour coordinate your door with your car or your favourite lipstick? Ask us about the many options, as "made-to-measure" is always standard as far as we're concerned, and that makes High-Line garage doors the new standard.

SIMPLE SELECTION

When looking for a garage door, we can imagine that it's hard to see the wood for the trees. We fully understand that. That's why we've compiled an orderly configuration of all the options. Try it for yourself, selection has never been more simple!

CONVINCE YOURSELF

We believe it's important to visit one of our selected European High-Line dealers to convince yourself of the quality of both the product and the service. The High-Line dealer represents professionalism, expertise and service, and is available and accessible when needed. Our dealers will be pleased to show you the many options, the quality and - also important - our friendly pricing. We will happily withstand any comparison! No wonder High-Line garage doors have become the new standard.

SELECTED PARTNER

YOU'RE IN GOOD COMPANY

The photos featured in this book are photos of real doors belonging to real people. From Iceland to Switzerland and from Norway to the Netherlands. These proud owners are happy to show the High-Line doors that they have consciously chosen, just like the more than 300,000 proud owners in more than 25 countries. They all opted, with confidence, for the new standard!
